THE JOURNEY

The journey of **ESSAR ENGINEERS** started 23 years ago founded by **Mr. K. Rajarathinam**. Started with the husk related fibre and cocopith processing machines, we have grown into a full-fledged turned key business solution provider in coconut processing industry. Our strength has been and is the sturdy design, reliable services and updated technology. Our unrelenting research and development activities has given us a clear edge. We are here to transfer our entire experience to your projects and be part of your growth story.

We have done around 900 installations in coconut growing countries like India, Indonesia, Philippines, Sri Lanka, Brazil Dominican Republic, Ghana, Mozambique, Ivory Cost, Thailand, Mianmar, Vanautu, Vietnam, Mexico, Equador etc.,
